

# Web Development with HTML, CSS, and JavaScript

TEC-002 · Week 1 of 10 · IT and Technology

## THIS WEEK'S FOCUS

Structure accessible web content.

## STUDY LOAD

6 hours · Read · Watch · Apply

## ACADEMIC STUDY CONNECTION

Apply this resource to Web Development with HTML, CSS, and JavaScript: Foundations and workflow. Use it to deepen the week's target outcome, "Structure accessible web content."

## Lesson pathway

### 01 · Read

Build the concept using the attributed open resource below.

### 02 · Watch

Use the linked university or professor lesson as a second explanation.

### 03 · Apply

Create evidence from the guided activity and reflection prompt.

## Open reading or reference

OpenStax · Peer-reviewed open textbook

[Foundations of Information Systems](#)

Read selectively for this week's foundations and workflow work. CC BY

## University or professor video

MIT web.lab · Introduction to JavaScript

[Open video lesson or university channel](#)

Watch with the Web Development with HTML, CSS, and JavaScript learning outcome in mind; take notes on an idea to test locally.

### **Guided learning activity**

Complete a guided foundations and digital workflow activity using a Liberian or regional case study.

**Evidence to save:** Deployed responsive website.

### **Reflect and connect**

In 3–5 sentences, explain how this week's concept could improve a real organisation, community service, workplace, or learner project in Liberia or your local context. Identify one assumption, one risk, and one action you would test next.

Source note: GentsAcademy created this original study guide and uses an original image representing young Liberian learners. External resources remain owned by their respective providers and should be used according to the licence or access terms stated on the source page.
