

Web Development with HTML, CSS, and JavaScript

TEC-002 · Week 4 of 10 · IT and Technology

THIS WEEK'S FOCUS

Publish and test a small web project.

STUDY LOAD

6 hours · Read · Watch · Apply

ACADEMIC STUDY CONNECTION

Apply this resource to Web Development with HTML, CSS, and JavaScript: Build, configure, or analyse. Use it to deepen the week's target outcome, "Publish and test a small web project."

Lesson pathway

01 · Read

Build the concept using the attributed open resource below.

02 · Watch

Use the linked university or professor lesson as a second explanation.

03 · Apply

Create evidence from the guided activity and reflection prompt.

Open reading or reference

California Community Colleges OERI · Curated academic OER collection

[OER for information technology and information systems](#)

Read selectively for this week's build, configure, or analyse work. Licence varies by source; verify on source page

University or professor video

MIT OpenCourseWare · Artificial Intelligence lecture videos

[Open video lesson or university channel](#)

Watch with the Web Development with HTML, CSS, and JavaScript learning outcome in mind; take notes on an idea to test locally.

Guided learning activity

Complete a guided build, configure, or analyse activity using a Liberian or regional case study.

Evidence to save: Deployed responsive website.

Reflect and connect

In 3–5 sentences, explain how this week's concept could improve a real organisation, community service, workplace, or learner project in Liberia or your local context. Identify one assumption, one risk, and one action you would test next.

Source note: GentsAcademy created this original study guide and uses an original image representing young Liberian learners. External resources remain owned by their respective providers and should be used according to the licence or access terms stated on the source page.
