

Prompt Engineering and Responsible Generative AI

TEC-009 · Week 3 of 8 · IT and Technology

THIS WEEK'S FOCUS

Protect personal and organisational information.

STUDY LOAD

6 hours · Read · Watch · Apply

ACADEMIC STUDY CONNECTION

Apply this resource to Prompt Engineering and Responsible Generative AI: Build, configure, or analyse. Use it to deepen the week's target outcome, "Protect personal and organisational information."

Lesson pathway

01 · Read

Build the concept using the attributed open resource below.

02 · Watch

Use the linked university or professor lesson as a second explanation.

03 · Apply

Create evidence from the guided activity and reflection prompt.

Open reading or reference

MIT OpenCourseWare · University open course

[Artificial Intelligence](#)

Read selectively for this week's build, configure, or analyse work. MIT OpenCourseWare terms

University or professor video

Stanford CS229 · Andrew Ng · Machine Learning Lecture 1

[Open video lesson or university channel](#)

Watch with the Prompt Engineering and Responsible Generative AI learning outcome in mind; take notes on an idea to test locally.

Guided learning activity

Complete a guided build, configure, or analyse activity using a Liberian or regional case study.

Evidence to save: Prompt library and ethics memo.

Reflect and connect

In 3–5 sentences, explain how this week's concept could improve a real organisation, community service, workplace, or learner project in Liberia or your local context. Identify one assumption, one risk, and one action you would test next.

Source note: GentsAcademy created this original study guide and uses an original image representing young Liberian learners. External resources remain owned by their respective providers and should be used according to the licence or access terms stated on the source page.
