

# Property Management and Booking Systems

TEC-010 · Week 3 of 8 · IT and Technology

## THIS WEEK'S FOCUS

Apply guest-data and access safeguards.

## STUDY LOAD

6 hours · Read · Watch · Apply

## ACADEMIC STUDY CONNECTION

Apply this resource to Property Management and Booking Systems: Build, configure, or analyse. Use it to deepen the week's target outcome, "Apply guest-data and access safeguards."

## Lesson pathway

### 01 · Read

Build the concept using the attributed open resource below.

### 02 · Watch

Use the linked university or professor lesson as a second explanation.

### 03 · Apply

Create evidence from the guided activity and reflection prompt.

## Open reading or reference

MIT OpenCourseWare · University open course

[Artificial Intelligence](#)

Read selectively for this week's build, configure, or analyse work. MIT OpenCourseWare terms

## University or professor video

Stanford CS229 · Andrew Ng · Machine Learning Lecture 1

[Open video lesson or university channel](#)

Watch with the Property Management and Booking Systems learning outcome in mind; take notes on an idea to test locally.

## Guided learning activity

Complete a guided build, configure, or analyse activity using a Liberian or regional case study.

**Evidence to save:** Configured workflow and report.

**Reflect and connect**

In 3–5 sentences, explain how this week’s concept could improve a real organisation, community service, workplace, or learner project in Liberia or your local context. Identify one assumption, one risk, and one action you would test next.

Source note: GentsAcademy created this original study guide and uses an original image representing young Liberian learners. External resources remain owned by their respective providers and should be used according to the licence or access terms stated on the source page.
