

# Mobile App Development with React Native

TEC-003 · Week 9 of 10 · IT and Technology

Study independently · keep a notebook · save your evidence

## THIS WEEK'S OUTCOME

**Plan a mobile user flow.**

## STUDY RHYTHM

**6 hours**

Short sessions work best: Read · Watch · Make · Reflect.

## START HERE · IN PLAIN LANGUAGE

In plain language, this lesson helps you work on plan a mobile user flow.. Treat portfolio and review as a skill you can build in small steps: study one idea, compare it with a real Liberian or regional example, and save a short piece of evidence of what you understood.

**01**

**READ**

Find the main idea.

**02**

**WATCH**

Notice a method.

**03**

**MAKE**

Try it locally.

**04**

**REFLECT**

Check what changed.

## Your learning path

### READ FOR THE IDEA

Read for the main idea: Plan a mobile user flow.

### WATCH FOR THE METHOD

Watch for one method or example connected to portfolio and review.

### MAKE EVIDENCE

Apply the idea locally and save mobile prototype and test notes.

## ESSENTIAL QUESTION

**How could portfolio and review improve a real situation connected to Mobile App Development with React Native?**

Write one sentence before you begin. Revisit it after you apply the activity.

**Learn from trusted sources** These materials extend this original GentsAcademy guide. They remain owned by the named providers. Read or watch using the source's own access and licence terms.

**ACADEMIC READING · SOURCE RECORD**

## Foundations of Information Systems

Provider OpenStax  
Kind Peer-reviewed open textbook  
Licence / access CC BY  
Official URL [Open official source at openstax.org](https://openstax.org)

**Use it this week:** Read selectively for this week's portfolio and review work.

**UNIVERSITY OR PROFESSOR VIDEO · SOURCE RECORD**

## Introduction to JavaScript

Provider MIT web.lab  
Kind University lecture or official educational video  
Licence / access Access terms apply; video remains the property of its provider and platform.  
Official URL [Open official source at youtube.com](https://www.youtube.com/watch?v=8mOTLW3T808)

**Use it this week:** Watch with the Mobile App Development with React Native learning outcome in mind; take notes on an idea to test locally.

## Turn study into skill

**PRACTICE LABORATORY**

Submit and present the Mobile App Development with React Native capstone evidence.

Keep your work simple, local, and real. A basic note, recording, checklist, screenshot, calculation, or plan is valid practice.

**EVIDENCE CHECKLIST**

- ☐ I named the main idea.
- ☐ I noted one example.
- ☐ I tried one small action.
- ☐ I saved mobile prototype and test notes.

**SELF-CHECK · BEFORE YOU FINISH**

1. Can I explain this week's idea in my own words?
2. What example from Liberia, my community, or a regional service could I connect to it?
3. What is one next action I can test or improve?

**REFLECT AND CONNECT**

In 3–5 sentences, explain how this week's concept could improve a real organisation, community service, workplace, or learner project. Identify one assumption, one risk, and one action you would test next.

---

---

---

# Vocabulary + notebook

Use this final page as a learning checkpoint. Clear terms and brief notes make independent study easier to continue.

## SMALL SELF-STUDY GLOSSARY

**self-directed study (self-study)** means you manage your own learning plan. **learning evidence (evidence)** is the proof you save. A **learning source (source)** is credited to its original provider.

Glossary reference list

**evidence – learning evidence:** A saved note, plan, calculation, recording, checklist, or other item that shows what you can do.

**self-study – self-directed study:** A learner plans, studies, practises, and checks understanding without waiting for a live class.

**source – learning source:** An external reading or video credited to its original provider.

## MY NOTE BANK

The one idea I want to remember:

---

---

The example I will look for this week:

---

---

## FINISH WELL

Choose a time for your next study session. Small regular sessions are more useful than waiting for a perfect long study day.

## SHARE SAFELY

Discuss an idea with a trusted peer, mentor, or colleague. Keep your own notes and do not share sensitive personal or workplace data.

GentsAcademy created this original self-study guide and the learning image representing young Liberian learners. External readings and videos remain owned by their providers. Their title, provider, kind, licence/access note, and official URL are shown above for transparent, responsible use.
